YOUR FLEET MATTERS TO US

ABOUT US

ACS BEGAN WITH A SIMPLE BELIEF, EVERY FLEET DESERVES THE SAME LEVEL OF SAFETY, COMPLIANCE AND CARE, NO MATTER ITS SIZE.

FROM DAY ONE OUR MISSION HAS BEEN TO HELP BUSINESSES PROTECT THEIR VEHICLES, EMPOWER THEIR DRIVERS AND KEEP ROADS SAFER FOR THE COMMUNITIES AROUND US. TODAY, WE SUPPORT FLEETS ACROSS THE UK WITH CAMERA SAFETY SYSTEMS, DVS SOLUTIONS, TRACKERS AND TELEMATICS, INSTALLED WITH PRIDE AND BACKED WITH REAL AFTERCARE.

AS A SMALL BUSINESS WITH BIG AMBITIONS, WE OFFER THE SAME CAPABILITY AND EXPERTISE AS THE MULTINATIONALS, BUT AT A FRACTION OF THE COST. WHAT SETS US APART IS PASSION, ATTENTION TO DETAIL AND THE BELIEF THAT EVERY CUSTOMER GENUINELY MATTERS.

WE BUILD RELATIONSHIPS, NOT TRANSACTIONS. WE LISTEN, WE SUPPORT AND WE STAY INVOLVED LONG AFTER THE INSTALLATION IS FINISHED. OUR HOPE IS SIMPLKE, ONCE YOU CHOOSE ACS, YOU CHOOSE US AGAIN AND FEEL CONFIDENT RECOMMENDING US TO OTHERS.

WE DON'T JUST INSTALL EQUIPMENT, WE PROTECT FLEETS, BUILD TRUST AND MAKE SAFER JOURNEYS POSSIBLE.

MDVR SYSTEMS

Your MDVR (Mobile DVR) systems give you a full visual record of what's happening in and around your vehicles. With up to 12 cameras you can achieve 360° coverage, including optional load cameras to monitor cargo and secure areas.

Systems are available as:

- Live — view vehicles remotely via phone or desktop (subscription-based)
- Non-Live — download footage directly from the MDVR unit or SD card

Why Fleets Use MDVR

MDVR improves day-to-day operations by helping drivers manoeuvre safely, reducing blind spots and supporting accountability across the fleet. It also helps operators see what's really happening on the road, on-site and during deliveries.

Real Fleet Benefits

- Better visibility in busy environments
- Reduced collision risk & downtime
- Clear evidence for incidents & disputes
- Improved theft & load protection
- Faster operational decision-making
- Supports training & continuous improvement

Insurance Advantage

Access to verified footage can help speed up claims, reduce fraudulent disputes and support liability decisions, which can help fleets manage overall insurance exposure over time. Many operators see MDVR as a cost-saving tool, not just a safety system.

At ACS, we supply and install Live and Non-Live MDVR solutions for HGV, 7.5t, vans and specialist vehicles, complete with aftercare and technical support.

DVS SYSTEMS

DVS Systems - What are they and how do they benefit me?

The Direct Vision Standard (DVS) improves visibility around heavy vehicles by reducing blind spots through radar, AI sensors, cameras and audible alerts. It's designed to protect pedestrians, cyclists and road workers in busy urban environments where the risks are highest.

For drivers, better visibility means more confidence, fewer near-misses and safer manoeuvring in tight city spaces.

For fleets, DVS can lower collision rates, reduce downtime, support insurance claims and help defend liability when incidents occur.

DVS is already mandatory for vehicles over 12 tonnes in London, with similar schemes expected across Manchester, Birmingham and Bristol, making early adoption a smart move for operators looking to stay compliant and avoid last-minute downtime.

At ACS, we supply and install complete DVS-compliant PSS kits, helping fleets:

- Protect vulnerable road users
- Support drivers
- Avoid penalties & operational disruption
- Reduce costs linked to collisions and claims
- Strengthen insurance positions
- Stay compliant as more cities tighten regulation

We make compliance straightforward — with professional installation, proper setup and ongoing aftercare to keep your fleet on the road.

Protect your fleet. Stay compliant. Save lives.

TRACKERS & TELEMATICS

Modern vehicle trackers and telematics systems give operators real-time visibility over their fleet. From GPS location to driving behaviour and route data, these systems help fleets make smarter decisions and keep vehicles moving efficiently.

Trackers are supplied and installed per unit and then operate on a subscription basis for data and platform access.

What Trackers & Telematics Offer

- Live location tracking and route history
- Geofencing for sites, depots and delivery zones
- Driver behaviour monitoring (harsh braking, idling, overspeeding etc)
- Vehicle utilisation insights
- Mileage and trip reporting
- Delivery and arrival verification
- Theft protection and vehicle recovery

Fleet Benefits

- Improved operational planning
- Reduced fuel and idle costs
- Better route efficiency and time management
- Accountability for remote drivers and assets
- Faster decision making during breakdowns or delays
- Support for delivery timing and customer communication
- Reduced unauthorised use of vehicles

Insurance & Cost Advantage

Trackers support theft prevention and recovery which can help reduce risk exposure and protect assets. Telematics data also helps build safer driving habits and reduce incident frequency, something insurers increasingly take into account when assessing risk.

For many fleets, trackers and telematics pay for themselves through improved efficiency, reduced downtime and better operational visibility.

At ACS, we supply and install fleet tracking and telematics systems for HGV, 7.5t, vans and specialist vehicles with ongoing support and subscription services to suit your fleet needs.

CHECK DRIVERS, DRIVING HABITS AND DRIVING PERFORMANCE THROUGH TELEMATICS

CHECK THE LIVE LOCATION OF ANY OF YOUR FLEET AT ANYTIME.

SAVE MONEY BY CUTTING FUEL COSTS AND IMPROVING DRIVING EFFICIENCY

REVERSE CAMERA PACKAGE

- SEE EXACTLY WHAT'S BEHIND YOUR VEHICLE
- ELIMINATE REAR BLIND SPOTS INSTANTLY
- REVERSE SAFELY IN TIGHT SPACES
- PROTECT PEOPLE AND PROPERTY
- REDUCE COSTLY DAMAGE AND DOWNTIME
- IMPROVE DRIVER CONFIDENCE ON EVERY MANOEUVRE

- CHOICE OF DASH MONITOR OR PREMIUM MIRROR MONITOR
- MIRROR OPTION GIVES A CLEAN, OEM FINISH
- DASH MONITOR IS A SIMPLE, COST EFFECTIVE SOLUTION
- VIEW CAN BE ALWAYS ON WHILE DRIVING
- OPTION TO AUTO ACTIVATE WHEN REVERSE IS SELECTED
- BUILT TO SUIT ANY VEHICLE AND DRIVER PREFERENCE

WILL MORE CITIES FOLLOW SUIT WITH LONDONS (TFL) DIRECT VISION STANDARD (DVS)?

The Direct Vision Standard (DVS) has already reshaped HGV compliance in London. With growing focus on vulnerable road users and urban safety, many operators are now asking whether similar DVS-style schemes could move into other UK cities.

While no nationwide rollout has been confirmed, the direction of travel is clear — city-based HGV safety regulations are tightening.

If DVS expands, fleets could face:

- Mandatory DVS star ratings
- Progressive Safe System (PSS) upgrades
- Permit requirements before entering certain zones
- Fines for non-compliance
- Increased pressure at insurance renewal
- Vehicle downtime if upgrades are left too late

For operators working across multiple cities, preparation will be key.

Getting ahead now means avoiding last-minute installs, penalties, and disruption to your fleet.

ARE MORE FLEET INSURANCE COMPANIES REQUESTING VEHICLE CAMERA SYSTEMS?

Yes, and increasingly at renewal stage and when requesting new quotes.

Insurance providers are placing greater focus on fleet safety technology such as dash cams and MDVR systems. These systems provide clear incident evidence and help reduce overall risk.

At renewal or quote stage, insurers may ask:

- Do your vehicles have camera systems installed?
- What level of coverage is provided?
- Is footage securely stored and accessible?

- Having camera systems in place can
 - Present your fleet as lower risk
 - Support stronger policy terms
 - Help secure more competitive pricing

If your insurance provider has requested cameras to be fitted, ACS Installs can take care of everything for you.

MEET RICHARD & DOMINIC

Richard thought about contacting ACS but put it off as he thought he had other priorities, it wasn't until he had insurance claims, late deliveries, high fuel costs and no fleet management he wished he'd of acted sooner

Now Dominic used ACS to install camera systems trackers and telematics, he was able to sit back relax and know his efficiency was controlled, he saw fuel savings, had full visibility of his fleet at all times and any insurance claims he had, he was able to show the evidence to show who was at fault.

DON'T BE A DICK!

BE A DOM!

YOUR FLEET MATTERS TO US

WHY ACS?

CHOOSING ACS MEANS CHOOSING A COMPANY THAT GENUINELY CARES ABOUT WHAT IT DOES AND WHO IT DOES IT FOR. MANY COMPANIES PROMISE PASSION AND CUSTOMER FOCUS, BUT WE BELIEVE IN PROVING IT. WE DELIVER ON THE THINGS OTHERS ONLY TALK ABOUT.

WE PRIDE OURSELVES ON QUALITY INSTALLATIONS, RELIABLE EQUIPMENT AND THE KIND OF ATTENTION TO DETAIL THAT SHOWS IN EVERY VEHICLE WE WORK ON. FROM A SINGLE VAN TO A FULL FLEET, EVERY CUSTOMER MATTERS AND EVERY INSTALL IS TREATED WITH THE SAME LEVEL OF CARE AND PROFESSIONALISM.

OUR AFTERCARE IS WHERE WE STAND OUT. WE DON'T DISAPPEAR ONCE THE JOB IS DONE. WE SUPPORT YOU, COVER YOUR SERVICES AND STAY INVOLVED TO ENSURE YOUR FLEET REMAINS PROTECTED AND COMPLIANT.

WHEN YOU CHOOSE ACS, YOU'RE CHOOSING PEACE OF MIND. YOU'RE CHOOSING QUALITY. AND YOU'RE TRUSTING A BUSINESS THAT TAKES CARE OF THE REST.
